Nokia Bluetooth Headset BH-112U User Guide

Issue 1.2

Introduction

About your headset

With the Nokia Bluetooth BH-112U headset, you can handle calls hands-free, even when you are using two mobile devices at the same time.

The surface of this product is nickel-free.

Warning:
This product may contain small parts. Keep them out of the reach of small children.

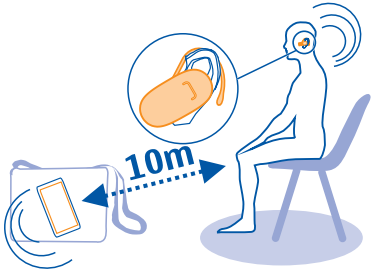
Parts of the product are magnetic. Metallic materials may be attracted to the product. Do not place credit cards or other magnetic storage media near the product, because information stored on them may be erased.

Read this user guide carefully before using the product. Also, read the user guide for the device that you connect to the product.

About Bluetooth connectivity

You can use Bluetooth to make a wireless connection to other compatible devices, such as mobile devices.

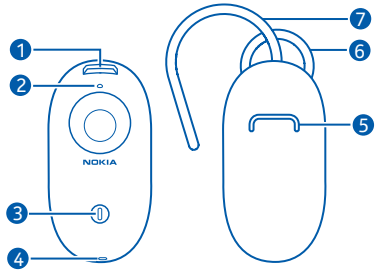
Devices do not need to be in direct line-of-sight, but they must be within 10 metres (33 feet) of each other. The connection may be affected by obstructions such as walls or other electronic devices.



This device is compliant with Bluetooth Specification 2.1 +EDR supporting the following profiles: Headset Profile (HSP) 1.1, Handsfree Profile (HFP) 1.5. Check with the manufacturers of other devices to determine their compatibility with this device.

Get started

Keys and parts



1 Charger connector
2 Indicator light
3 Power key
4 Microphone
5 Call key
6 Earpiece
7 Earloop

Start using your headset

When you switch on your headset for the first time, a voice prompt helps you set up your headset. Voice prompts are not available in all languages.

The headset comes with different sized earpads. Select the earpad that fits the best and is the most comfortable for your ear. To change the earpad, pull the current earpad from the earpiece, and push the new earpad into place.

1 To switch the headset on, press and hold ⏻ for 2 seconds. If the headset doesn't switch on, charge the battery.
2 Gently push the earpiece into your ear.
3 To pair the headset with a compatible phone, follow the voice prompt.

Charge the battery

Before using the headset, you must charge the battery.

Warning:
Use only chargers approved by Nokia for use with this particular model. The use of any other types may invalidate any approval or warranty, and may be dangerous. Use of unapproved chargers may present a risk of fire, explosion, or other hazard.

1 Connect the USB cable to the USB connector of the charger. Connect the charger to a wall outlet.
2 Connect the charger cable to the charger connector on the headset. The red indicator light turns green when the battery is fully charged.
3 Disconnect the charger from the headset, then from the wall outlet.

When you unplug a charger, hold and pull the plug, not the cord.

The fully charged battery has power for up to 5 hours of talk time or up to 150 hours of standby time.

When the battery charge is low, you hear a voice prompt, the headset beeps every 5 minutes, and the red indicator light flashes. When the battery is charging, the red indicator light is on.

Check the battery charge

Make sure the headset is switched on, and press ⏻. A green light indicates a sufficient charge level. If the light is yellow, you may need to recharge the battery soon. If the light is red, recharge the battery.

Switch the headset on or off

Switch on

Press and hold ⏻ for 2 seconds. The headset beeps, and a green indicator light flashes once.

The headset connects to the last connected device. If you have never paired the headset with a device, or you have cleared the device pairings, pairing mode is activated.

Switch off

Press and hold ⏻ for 2 seconds. The headset beeps, and a red indicator light flashes once. All active calls are ended.

If not connected to a device within 30 minutes, the headset switches off.

Pair and connect the headset to your phone

Before using the headset, you must pair and connect it to a compatible phone.

1 To switch the headset off, press and hold ⏻ for 2 seconds.
2 Switch on the phone to pair with.
3 If you have never paired the headset with a phone, or you have cleared the phone pairings, switch the headset on.

   If you have previously paired your headset with another phone, press and hold ⏻ for 5 seconds.

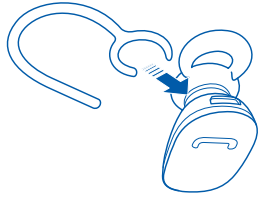
   Pairing mode is activated, and a green indicator light starts to flash quickly. Follow the voice prompt.
4 Within 3 minutes, activate Bluetooth on the phone, and set it to search for Bluetooth devices. For details, see the user guide of the phone.
5 Select the headset from the list of found devices.
6 If required, enter the passcode **0000**.

You can pair your headset with 8 compatible phones, but you can only connect it to a maximum of 2 phones at the same time.

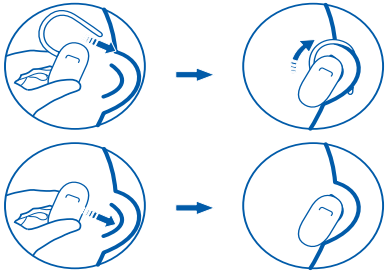
With some phones, you may need to make the connection separately after pairing.

Wear the headset

If you want to use the headset with the earloop, attach the earloop to the headset. To detach the earloop, gently pull it from the headset.



Slide the earloop behind your ear, and gently push the earpiece against your ear. Carefully bend the earloop around your ear for the best fit. Point the headset towards your mouth.



Make calls

Make and receive calls

To make and receive calls using your headset, you need to connect it to your phone.

Make a call

Make a call in the normal way.

Answer a call

Press ⌐.

End a call

Press ⌐.

Reject a call

Press ⌐ twice.

Switch a call between your headset and phone

Press and hold ⌐ for 2 seconds.

You can redial the last called number or use voice dialling, if your phone supports these features with the headset.

Redial the last called number

When no call is in progress, press ⌐ twice.

Use voice dialling

When no call is in progress, press and hold ⌐ for 2 seconds, and follow the instructions in the user guide of your phone.

Change the volume

Set the desired volume level on your connected mobile device. The selected volume level is saved as the minimum volume level for the device that is currently connected to the headset.

Pair and connect the headset to two phones

When you use the headset for the first time, it automatically connects to your phone. You can also connect your headset to another phone, and manage calls from, for example, both your personal and your work phone at the same time.

1 Make sure Bluetooth is activated on both phones.
2 To switch the headset off, press and hold ⏻ for 2 seconds.
3 To activate pairing mode, press and hold ⏻ for 5 seconds, and pair the headset with the second phone.
4 Switch the headset off and back on. The headset connects to both phones.

To use your headset with just one phone again, activate pairing mode, and press and hold ⏻ and ⌐ for 5 seconds.

Handle calls from two phones

If your headset is connected to two phones, you can handle calls from both at the same time.

End an ongoing call, and answer a call on another phone

Press ⌐.

Put an ongoing call on hold, and answer a call on another phone

Press and hold ⌐ for 2 seconds.

Switch between active and held calls

Press and hold ⌐ for 2 seconds.

End an ongoing call, and activate a held call

Press ⌐.

If you redial or use voice dialling, the call is made on the phone you last had an active call on with the headset.

Settings

Clear device pairings

1 To switch the headset off, press and hold ⏻ for 2 seconds.

2 Press and hold ⏻ and ⌐ for 9 seconds. The headset beeps twice, and the red and green indicator lights alternate.
3 When the headset switches on, follow the voice prompt. Pairing mode is activated.

Deactivate voice prompts

1 To switch the headset off, press and hold ⏻ for 2 seconds.
2 Press and hold ⏻ for 5 seconds. Pairing mode is activated, and a blue indicator light starts to flash quickly.
3 Press and hold ⌐ for 5 seconds. You hear a voice prompt, and a yellow indicator light flashes once.

Activate voice prompts

1 To switch the headset off, press and hold ⏻ for 5 seconds.
2 Press and hold ⏻ for 5 seconds. Pairing mode is activated, and a blue indicator light starts to flash quickly.
3 Press and hold ⌐ for 2 seconds. You hear a voice prompt, and a green indicator light flashes once.

Troubleshooting

- Cannot connect the headset to a compatible device? Make sure the headset is charged, switched on, and paired with the device.
- Did the headset stop functioning even though it is charged? Plug the charger into a wall outlet, and while you press and hold the power key, connect the headset to the charger.

Product and safety information

Battery and charger information

This device has an internal, nonremovable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device.

Charge your device with any Nokia micro-USB charger. Charger plug type may vary. The plug variant is identified by one of the following: E, X, AR, U, A, C, K, or B.

The battery can be charged and discharged hundreds of times, but it will eventually wear out.

Talk and standby times are estimates only. Actual times are affected by, for example, device settings, features being used, battery condition, and temperature.

If the battery has not been used for a long time, to begin charging, you may need to connect the charger, then disconnect and reconnect it.

If the battery is completely discharged, it may take several minutes before the charging indicator is displayed.

When your charger is not in use, unplug it from the electrical plug and the device. Do not leave a fully charged battery connected to a charger, as overcharging may shorten the battery's lifetime. If left unused, a fully charged battery will lose its charge over time.

Always keep the battery between 15°C and 25°C (59°F and 77°F). Extreme temperatures reduce the capacity and lifetime of the battery. A device with a hot or cold battery may not work temporarily.

Do not dispose of batteries in a fire as they may explode. Dispose of batteries according to local regulations. Recycle when possible. Do not dispose as household waste.

Use the charger for its intended purpose only. Improper use or use of unapproved chargers may present a risk of fire, explosion, or other hazard, and may invalidate any approval or warranty. If you believe the charger is damaged, take it to a service centre for inspection before continuing to use it. Never use a damaged charger. Only use the charger indoors.

Take care of your device

Handle your device, charger and accessories with care. The following suggestions help you protect your warranty coverage.

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that corrode electronic circuits. If your device gets wet, allow the device to dry.
- Do not store the device in cold temperatures.
- Do not attempt to open the device.
- Unauthorised modifications may damage the device and violate regulations governing radio devices.
- Do not drop, knock, or shake the device.
- Only use a soft, clean, dry cloth to clean the surface of the device.

Recycle

Always return your used electronic products, batteries, and packaging materials to dedicated collection points. This way you help prevent uncontrolled waste disposal and promote the recycling of materials.
